SPEAKER BIOG:

Captain Satinder Viridi

Capt Satinder has been teaching in Singapore Maritime Academy, part of Singapore Polytechnic for last 5 years. He sailed for more than 15 years in various shipping companies, primarily onboard various types of Tankers before starting this exciting journey in Singapore Polytechnic. He has been involved in running of various Tanker courses and Liquid Cargo simulator courses involving Oil, Chemical and Gas Tankers.

Capt Satinder holds Honours degree in Mechanical Engineering from the prestigious 'Punjab Engineering College' before joining his sea career. His others areas of work include the training of shipboard officers including Deck Cadets, Dual Officers, Marine Engineers and Mates and Master candidates and training future officers for ECDIS, Electronic Navigation Systems and FPSO personnel. Currently he is the Course Manager for 'Certificate of Competency' courses for Deck and oversees the management STCW short courses.
